## **REFERENCE COPY OF TECHNICAL DOCUMENTATION FOR ACCESSIONED ELECTRONIC RECORDS (Copied: June 30, 2009)**

**Central Personnel Data File, Current Status Master File, 1987**

**Record Group 478**

**Records of the Office of Personnel Management**

The National Archives and Records Administration (NARA) has been accepting electronic records into its holdings since the early 1970s. Technical documentation has accompanied each transfer of electronic records. The documentation is necessary to understand the meaning of the digitized bits of information within the electronic records.

Over the decades, NARA has had different procedures for compiling technical documentation into an organized unit for researchers, and different expectations regarding the content and extent of any NARA-produced portions of the documentation. Consequently, the structure, organization and contents of the documentation reflect the procedures in place when the technical documentation was compiled and arranged and may include out of date addresses, telephone numbers, or other items of unrevised information related to the agency that created or transferred the documentation and electronic records to NARA, to the NARA unit that processed these materials, or to the physical media of the electronic records files.

In creating the reference copy of the documentation package, NARA staff have selected from the technical and/or supplementary documentation available for this series or file(s). We have annotated or highlighted the table of contents that follows to indicate which portions of the full documentation for this series or file are included in this reference copy of documentation. Any materials not included here are available upon request. Any user notes prepared after the table of contents was prepared appear before the table of contents. This documentation will differ in structure, organization and contents from technical documentation for other series or files of accessioned electronic records. The readability and visual quality are also variable.

---

8601 Adelphi Road  
College Park, Maryland 20740-6001

Date: June 21, 2007  
To: File  
From: NWME (Hull)  
Subject: User Note for CPDF Scrambled File

The National Archives and Records Administration, has in its custody two versions of the Central Personnel Data File: Current Status Master File for each year of data that have been transferred. The two versions are 1) Unscrambled and 2) Scrambled. The unscrambled version contains the correct Social Security Number for each case represented in the file. In the scrambled file, the Social Security Number on each case has been scrambled to prevent the identification of persons represented in the CPDF. In the case of the unscrambled files, access to the information contained within is restricted for 72 years from the creation date and subject to OPM/GOVT1 system notice. All researchers requesting these records are urged to contact OPM's Assistant Director for Information for technical assistance in understanding and use of the data contained in the CPDF.
