REFERENCE COPY OF TECHNICAL DOCUMENTATION FOR ACCESSIONED ELECTRONIC RECORDS (Copied: June 25, 2009)

Tennessee Valley Authority Human Resources Information System, 1992

Record Group 142

Records of the Tennessee Valley Authority

The National Archives and Records Administration (NARA) has been accepting electronic records into its holdings since the early 1970s. Technical documentation has accompanied each transfer of electronic records. The documentation is necessary to understand the meaning of the digitized bits of information within the electronic records.

Over the decades, NARA has had different procedures for compiling technical documentation into an organized unit for researchers, and different expectations regarding the content and extent of any NARA-produced portions of the documentation. Consequently, the structure, organization and contents of the documentation reflect the procedures in place when the technical documentation was compiled and arranged and may include out of date addresses, telephone numbers, or other items of unrevised information related to the agency that created or transferred the documentation and electronic records to NARA, to the NARA unit that processed these materials, or to the physical media of the electronic records files.

In creating the reference copy of the documentation package, NARA staff have selected from the technical and/or supplementary documentation available for this series or file(s). We have annotated or highlighted the table of contents that follows to indicate which portions of the full documentation for this series or file are included in this reference copy of documentation. Any materials not included here are available upon request. Any user notes prepared after the table of contents was prepared appear before the table of contents. This documentation will differ in structure, organization and contents from technical documentation for other series or files of accessioned electronic records. The readability and visual quality are also variable.

College Park, Maryland 20740-6001

User Note 1

Accession #: N3-142-94-001 Data file: RG142.EIS.PUB1992

Since this data file is the public use version of the 1992 data, several fields have had their data "masked" (data deleted from this version by the originating agency).

The HRIS Code Definitions manual included in the Agency Documentation was copied from the 1994-1995 accession (N3-142-97-001). The NARA Output File Description included in the manual contains an error in the format for the "BIRTH DATE" element (MMDDYY). The correct format for this field, verified by the viewing the data, is YYMMDD. This format is consistent with the format for all other dates in HRIS. The HRIS manual is missing pages 2-4 of the County Code Listing.

Data Specific Issues: (Record # refers to ORA_SEQUENCE of loaded data)

Record # 741 has a nonblank data value of "□□" in the data element field "PGRADE".

Record # 2802 has a nonblank data value of "□□" in the data element field "PGRADE".

Record # 1257 has a nonblank data value of "*" in the data element field "DPTL5".

Record # 1257 has a nonblank data value of "*" in the data element field "DPTL6".

Record # 1257 has a nonblank data value of "*" in the data element field "DPTL7".

Record # 1662 has a nonblank data value of "*C" in the data element field "TVADDR".
