

PDAP Report Check Sheet

Title

Less than 250 characters, and informative

Introduction

Clearly stated and well supported hypothesis

Context/rationale for study given – broad context linked to specific study objectives

Appropriate literature to support rationale and hypothesis

Methods

Methods sufficient for another investigator to replicate the study

Results

Text describes general trends and data

Thoughtful statistical analysis and graphical presentation of data

Figures and tables provide clear and aesthetically pleasing summaries of data

Appropriately labeled axes/columns

Units of measurement are shown in figures and tables

Figures and Tables have a legend (caption) that clearly describes the figure/table

Discussion (Interpretation of your data)

Statement of major findings

Consistent or inconsistent with hypothesis

Interpret data with possible mechanisms by which the data might have occurred

Interpretations are supported with appropriate cited literature

Literature Cited

Peer reviewed sources listed in appropriate format

Sources cited using appropriate format throughout text

General Observations

Concepts and objectives are clearly understood, clearly presented

Report written in a cohesive fashion with no typos, spelling errors, or grammatical errors
