

Salem-Keizer Head Start

Salem - Keizer Head Start Program

recognizes that parents are a child's first teacher and value them as partners in all aspects of the program.

Program Overview

Salem-Keizer Head Start Program is a comprehensive child development program serving children from ages three to five. It is child focused and the overall goal is to increase the social competence of young children in low income/high risk families.

Head Start provides a wide range of individualized services in the areas of early childhood and development, medical, dental, mental health education, as well as nutrition and parent involvement.

The entire range of services is responsive and appropriate to each child's developmental, ethnic, cultural, and linguistic heritage and experience.

Locations

Our classrooms are located in Bush, Highland, Liberty, Mary Eyre and Morningside elementary schools. Transportation is provided by school district buses.

Guiding Principles

The Head Start program believes in the empowerment of the family. Our classroom staff and family advocates work together to provide support and opportunities to each family. Parents and caregivers are encouraged to become involved through training classes, program governance, and volunteering.

Services We Provide

Child Vision • Dental and Health Screening •
Native Language Services and Instruction •
Nutrition Education

Our Mission

To empowering, enriching, and educate the lives of children and families.

To provide opportunities to Head Start children and families in the areas of parent education, health and nutrition, and other family needs.

Partnerships

The success of our program depends on our partnerships and agreements with our families and local agencies.

- Early Childhood Special Education
- Community Action Head Start
- West Salem Dental Clinic
