

Class Descriptions

Science Rotation

A different area of science each week. All classes include hands-on activities and labs.

Robotics

Learn to program your own robot using the LEGO Mindstorm system. Advanced Robotics is for students who have taken Beginning Robotics.

Japanese

Beginning and advanced Japanese language and culture

French

Beginning French language and culture with a native French speaker

Spanish

Beginning Spanish language and culture with a native Spanish teacher

Music Technology

Work with state-of-the-art music software to create and publish your own work.

NEW!!!

Math Circle (for 7th–10th grade students)

Join Willamette professors for fun math problem-solving activities.

Office of Scheduling, Events & Conferences
900 State Street
Salem, OR 97301

WILLAMETTE  UNIVERSITY

COME EXPLORE: Saturday Explorations

Who: Students in grades 5–8 with aptitude or interest in science and the language arts

What: Science and language classes designed to challenge and inspire young minds

Where: Olin Science Center on the Willamette University campus

When: Saturdays from 10 a.m. to noon
February 4–March 3, 2012

Cost: \$50 for all five weeks of class

Your child joins other students in exciting hands-on science and language classes, taught by Willamette University students. Experienced professors, administrators and teachers assist in the planning of all activities.
