Willamette Math Circle meets 4:15–5:30 p.m. each Tuesday, Sept. 22 through Nov. 10, at Willamette University.

The Math Circle group size is small, so hands-on exercises and deep, theoretical math discussions are possible.

Professors Peter Otto and Mark Janeba, who teach mathematics at Willamette University, lead the group with help from other area professionals and Willamette University students.

Cost: $75 for eight weeks.

Scholarships are available. Contact Christine Speak, cspeak@willamette.edu.
Willamette Math Circle brings higher level mathematics educators and students together. You will meet with math professionals to explore interesting problems and topics in mathematics. Your group will engage in fun, hands-on problem solving to deepen your understanding of mathematics.

All you need is an interest in math and a willingness to use your mind in new ways.

If so, Willamette Math Circle is for you.

Are you a high school or middle school student enrolled in honors geometry, or higher, level math?

Are you interested in delving deeper into mathematics and exploring intriguing activities and math puzzles?
